

Friends,

Thanks all who came to today's work party. We achieved a lot as follows:

Path maintenance: Phil, Chrissie and Mark, in the main, repaired the path edging.

Whip maintenance: Mike, Zdena, Mel and Michael checked the whips, which are doing well, before helping with the path edging.

Litter clearing and bike hump removal. Harry, Liam, Neil and I buried most of the broken glass and found a couple of bags of other litter before we made a start at removing the bike humps before Harry, Liam and Neil helped with the path edging and I blocked the cross over path.
